

ABM

PLAYS WELL WITH OTHERS

ABM PLAYS WELL WITH OTHERS

Wouldn't it make management of your business a lot easier if all of your software got along?

ABM integrates with a range of other systems including Alchemex, Xtracta, ASPluris, NETSTOCK, Opmetrix and SPNet allowing ABM to grow with your business.

BENEFITS

- » ABM grows with your business
- » Real time information is available at the click of a button
- » Improved efficiency
- » Improved accuracy and reduced errors

ABM INTEGRATES WITH

INTRODUCING A FULLY INTEGRATED BUSINESS & ACCOUNTING SOLUTION

ALCHEMEX

ABM Alchemex is a business intelligence system that gives your business the competitive edge by enabling quick and easy access to real-time information needed for operations and strategic planning.

Effortlessly create reports and analyze data from Advanced Business Manager utilizing Microsoft® Excel®.

With ABM Alchemex you can spend more time focusing on information analysis and interpretation and less time pulling the data together.

XTRACTA

Xtracta is an automated document processing system that allows users to email or upload their business documents and have the data from these entered automatically into ABM.

The new functionality will streamline administration functions and bring new efficiencies to ABM users' businesses. Once a document is uploaded or emailed, its data will be read and it will be available for review and approval into the ABM database in seconds.

ASPLURIS

ASPluris is a mobile supply chain management system that integrates directly to the ABM core accounting system ensuring real time visibility across the entire system.

ASPluris runs on a handheld data capture terminal or tablet which has the ability to read barcodes and RFID tags, speeding up data entry and ensuring accuracy.

NETSTOCK

NETSTOCK is an inventory management application that helps companies reduce excess inventory and free up working capital while minimising stock-outs and increasing revenue.

It is designed to integrate with ABM to provide visibility of inventory levels and investment, produce quality forecasts and optimal replenishment recommendations.

OPMETRIX

ABM Opmatrix is a mobile sales force application, designed to focus sales teams on automating day-to-day operations in the field.

With Opmatrix your sales team can use an Ipad, Windows 8 or Android tablet to record customer activity including managing customer contacts and call notes.

You can enter Orders, Invoices and Credits, then synchronize this data for automatic import into ABM.

SPNET

SPNet is an e-commerce module that links directly to ABM. It allows customers to view and purchase your products on the web with minimal effort to manage your website content.

SPNet can link to your existing website as a simple e-commerce shop or it can be integrated with the powerful open source Drupal CMS for a fully featured integrated website.
